ENGINEERING NEWS-RECORD

VOLUME 129...JULY—DECEMBER, 1942

July 2 ..... 1– 56
July 9 ..... 57– 72
July 16 73–122
July 23 123–140
July 30 141–186
August 6 187–200
August 13 201–255
August 20 256–270
August 27 271–320
September 3 321–334
September 10 335–388
September 17 389–400
September 24 401–448
October 1 449–462
October 8 463–515
October 15 516–532
October 22 533–596
October 29 597–612
November 5 613–666
November 12 667–686
November 19 687–736
November 26 737–754
December 3 755–808
December 10 809–825
December 17 826–876
December 24 877–890
December 31 891–938

A

Aeronautics

Airplane plants:

A-frames aid erection of 300-ft. trusses *150
Army plant requires giant air conditioning system *590
Bell Airacrobras assembled in flexible plant *592
Bridge travelers erect aircraft building *108
Canadian plant uses timber trusses with steel diagonals *589
Engine plant being built "from the roof down" n131

Airports:

Airbase paved in ninety days *479
Appropriations for construction n142
Army airfield runways paved at half a mile a day clip *18
Behind the Midway battle e148
Building airports on New England's bogs *153
Ceylon airport built by roller brigade n*896
Clearing snow from airports with plows and rotary blowers. H. W. Hunt *641; e622
Desert airbase constructed with soil-cement pavement *921
Drainage for an airplane repair depot *222
Drainage of airport pavement (Public Works Congress) 731
Establishing grades on airfields. B. J. Lambert *786; e764
Flight strip completed for Air Corps. n*62
Fort Worth, Tex. grading, etc. (unit prices) 824
Hangar for airship *841
Hangars for Navy blimps set new timber arch record *576
Hangar roof supported by bowstring timber trusses *771
Kansas City airport expansion approved n679
Metal igloos speed eastern airbase job n*324
New Jersey airport paving (unit prices) 824
Ohio civil airport surveys started n852
Pearl Harbor hangar blazes after sneak raid n*815
Pennsylvania airport paving, drainage and grading (unit prices) 120
Portable metal runways serve R.A.F. in battle 240
Removing snow from airports. R. H. Baldock 835
Rhode Is. runway inlets with gravel bottoms aid drainage *316
Runway paving speeded by cement spreader and road-mix methods *366
Runways, portable, set up in war zones n*204
Snow compaction to reduce the expense of winter maintenance *648
Air-conditioning—Army aircraft plant requires giant air conditioning system ... *590

Air Raids and Protection

Air raid protection code e696
Air raid shelters. W. H. Spindler ..... l 80
Air raid shelters for factory yards ... *430
Baltimore has 500 public air raid shelters ready n337
Blackout driving tested in Ohio town. n204
Blackout traffic control in Philadelphia with glass-beaded paint. R. A. Mitchell *720
Camouflage—protective concealment for industry. V. T. Boughton *156
Chicago model shows what might "happen here" n*136
Chicago utility organized for air raids. *438
Civilian defense needs (Public Works Congress) 729
Crews prepared to repair pipe breaks in bombed areas 925
Engineers, architects aid OCD protection studies n599
Federal Works Agency issues new air protection code for buildings. n391; n752
Gas decontamination stations planned for California *631
Glass in air raids e11
Great Britain installs emergency water tanks to guard against air raids n*811
Great Britain—London utilizes deepest tunnels as shelters n*457
Kansas City organized for war emergencies (chart) n129
Maintaining sewage and refuse disposal service in bombed areas 934
Massachusetts lays plans for raid damage repair n459
Mexico orders air raid shelters in new buildings n275
Portable fire hydrants used in England 930
Sand-bag barricades should be improved e10
Traffic signal blackout signals of new type installed in California *632
Water and air raids. Herman Tachau. l 209
Water emergency corps for Illinois cities 374
Water facilities pool plan completed by New Jersey n395
Waterworks problems in wartime (A.W.W.A. meeting) 99
American Association of State Highway Officials—St. Louis meeting n*830
Raise state dues n851
American Institute of Steel Construction—Colorado Springs meeting n519
Contest committee appointed n882
Position of manager to be created n69
American Public Works Association—Cleveland meeting n603
St. Louis meeting n614
American Railway Engineering Association cancels annual meetings n878
American Society for Testing Materials—Atlantic City meeting n4
American Society of Civil Engineers: Honorary members n537
Minneapolis meeting n144
Ninetieth year of organization n616; e622
American Society of Civil Engineers and Engineering Institute of Canada—Niagara Falls meeting n536
American Water Works Association—Chicago meeting n3
Apprentice standards for carpenters is set by Federal Committee on Apprenticeship n327

Aqueducts

Delaware River Aqueduct: Formula for water volume in partly filled tunnel. L. J. Sack *33
Arches:
Hangar roof supported by bowstring arch timber trusses on buttressed concrete columns *771
Hangars for Navy blimps set new timber arch record *576
Laminated construction e764
Laminated timber arches for military chapels n*599
Laminated timber arches used for Navy drill hall, Seneca Lake, N. Y. n*597
Architect-engineer-manager contract procedure. H. W. Richardson 179
Associated General Contractors meets in Chicago, n608; cancel annual meeting. n878
Auditorium building redesigned in concrete. W. H. Wheeler *578

Automobiles

Gas rationing favors engineers and construction men n67
Ohio to use paper sticker as license tag. n879

Automobiles—continued

War job maintenance plan conserves vital construction machines *116

Awards

Army-Navy "E" award to construction company n742
Contractors get first Navy "E" award. n609
E.N.R. editor gets Navy award for Seabee story n*893
Hoover medal award made to Gerard Swope n681
Moles award to Adm. Moreell and Frank Barnes n*681

B

Bauxite ore located in Georgia n332
Beaches see Shore protection

Beams

Deflections of continuous steel-beam highway bridges. T. W. Oliver *242
Economical timber trusses. G. L. Bilderbeck l 621; J. H. Carr, Jr. ..... l 763
Heavy load tests on a plywood girder. C. W. Muhlenbruch *31
Laminated timber beams *97
Maintaining full section of truss chord angles. C. S. Wilson *445
Mass production methods for timber trusses *440
Moment and deflection formulas. Meyerhof, Seidensticker, l*315; S. U. Benscoter *654
Prefabricated timber trusses used for speedy construction of Army warehouses *20
Using tubing to save steel. E. W. P. Smith ..... l 278
Billboard shows duties of large staff *315
Blast furnaces dismantled and moved *766

Blasting

Blast used for study of vibration travel rate 789
Saguenay River hydro project excavation completed by plug blasting n822
Wolf Creek Dam access road requires difficult rock excavation, *305; J. J. Crumbaugh ..... l 409
Bonds—Missouri court upholds defense financing act n62

Book Reviews

American highway practice. L. I. Hewes 378
Analysis of rigid frames. A. Amirikian 798
Camouflage with planting. R. R. Root 378
Cement durability program 506
Designing truss joints with timber connectors 43
Elementary structural analysis and design. L. E. Grinter 798
Engineering economic analysis. C. E. Bullinger 43
Handbook for concrete and cement 798
Handbook of applied hydraulics. C. V. Davis 655
Handbook of ship calculations; construction and operation. C. H. Hughes 506
Industrial camouflage manual. K. F. Wittmann 243
Industrial waste guides—supplement "D," Ohio River 655
Industrial waste treatment practice. E. F. Eldridge 243
Introduction to engineering economy. Woods & Garmo 798
Introduction to highway engineering. J. H. Bateman 378
Introduction to shipbuilding 506
Leonardo: master of renaissance. E. H. Lansing 655
Manual of moment design. Jack Singleton 44
Modern camouflage. R. P. Breckenridge 506
Natural trigonometric functions to seven decimal places for every ten seconds of arc. H. C. Ives 655
Panama Canal in peace and war. N. J. Padelford 43
Permutit data book 378
Practical principles of naval architecture. S. S. Rabl 506
Procedure handbook of arc welding design and practice 798

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Book Reviews—continued

Region in upheaval. Harry Grayson... 243
Soil-cement mixtures ... 243
Steel and timber structures... 798
Strength and properties of materials. John Elberfeld ... 244
Structural theory. Suthorland & Bowman ... 798
Training manual for auxiliary firemen. Bond, Heisler & Douglas... 44
Welding handbook ... 798
Your career in engineering. N. V. Carlisle ... 243

Bridge Accidents and Failures

Birmingham viaduct repaired...n*534
Chesapeake City, Md. accident—stronger bridge fenders. F. P. Witmer...l 343
Chesapeake City, Md. lift bridge wrecked by tanker...n*197
Chesapeake City, Md. wrecked bridge to be replaced by ferry...n756
Des Moines, Iowa, damaged bridge girder repaired ...n*605
English blitzed bridges repaired with pre-cast concrete ... 228
Frederick, Md. damaged stone bridge repaired with timber...n331
Iowa highway bridge wrecked by auto.n*125
Montezuma, Ind.—Wabash River bridge damage suit against trucker...n202
Ocean City, N. J. collapse kills two men ... n63
Pennsylvania highway bridge undermined by flood...n*124

Bridge Design

American institute of Steel Construction announces new competition...n456
Bridge design logic. Crosby Miller...l 208
Cantilever bridge virtues. N. C. Raab..l 343
Cantilever girders are better than plate girders under many conditions. C. H. Wood ... *235
Continuous girders preferred. Louis Balog ... l 279
Deflections of continuous steel-beam highway bridges. T. W. Oliver... *242
Dynamics and bridge design. A. M. Freudenthal ... l 540
Los Angeles overpass constructed of curved box girders...e697; *698
Sacramento overpass built with minimum obstruction ... *348
Stronger bridge fenders, e280; F. P. Witmer ... l 343

Bridges

Albion River, Calif. highway bridge (unit prices) ... 736
Austin, Tex.:
Lamar St. bridge opened...n*401
Baltimore, Md.:
Cloverleaf bridge and highway (unit prices) ... 246
Bolivia-Brazil bridge is planned...n605
Carrolton, Ky.:
Gin pole used to drive piles... *446
Central American suspension bridge...n*74
Chester, Ill.:
Highway bridge completed...n*391
Chicago:
Six bridges to be converted to movable ... n77
South-Western Avenue bridge alterations (unit prices)... *658
Cleveland, Ky.:
Highway bridge to be 250 ft. above the water. E. D. Smith... *25
Columbus:
Grade crossing overpass planned...n743
Covington-Cincinnati bridge:
Toll fees ruled out...n742; n758
Deerfield, Mass.:
Estimates to be revised...n459
Dubuque, Iowa:
Deck concrete delivered by pump...n*880
Sand fill reduces weight of pier... *296
Frederick, Md. damaged stone bridge repaired with timber...n331
Garland City, Ark.:
Red River cuts hole in approach...n197
Georgia highway bridge (unit prices)... 508
Georgia's coastal highway bridge...n*821
Hartford, Conn.:
Charter Oak bridge opened to traffic.n*338
Hartford, Conn.:
Work to continue...n755; n817
Havre de Grace, Md.:
May convert to scrap...n*449
International Railway Co., Buffalo, N. Y., to sell 20 steel bridges...n535
Kentucky overhead bridge (unit prices) 508
London:
Waterloo bridge has box girders on spans. H. M. Hadley...l 408
Waterloo bridge to open soon... n77
Los Angeles:
Ramona Blvd. overpass constructed of curved box girders... *698
Louisiana Army bridge built for its own railroad ... n*69
Maryland highway bridges (unit prices) 658
Merritt Parkway bridges guarded by Connecticut highway personnel...n276
Mexico-Guatemala bridge:
Railway bridge opened...n679
New Guinea:
Jungle bridge aids Army advance...n*877
New London bridge:
Work to continue...n817
New York City:
Sharp traffic drop on bridges...n135
Newport, Kentucky:
Toll bridge to be free...n742

Bridges—continued

North Carolina bridge (unit prices)... 186
North Sacramento, Calif.:
Overpass with minimum obstruction, *348; viaduct is opened...n*673
Ohio builds railroad overpass...n*609
Ohio highway bridge design saves steel ... n*747
Ohio highway overpass...n*679
Ohio opens highway bridges for war traffic ... n*519
Oklahoma bridge improvements (unit prices) ... 320
Oklahoma bridges and highways (unit prices) ... 448
Pan-American Railway opens linking bridge ... n752
Pascagoula River bridge taken over by Mississippi ... n274
Passaic River, N. J.:
Railroad bridge converted to auto traffic ... n742
Pennsylvania highway and bridges (unit prices) ... 508
Philadelphia:
Delaware River bridge—land secured for approaches ... n74
Pontoon bridge near Columbia, S. C. built by Army engineers in record time ... n203
Ponta-trestle bridge across Potomac inspected ... n*68
Quebec, Canada:
Toll charges on bridges to be eliminated ... n337
St. Louis:
Railroad underpass aids traffic. W. J. Hedley ... *290
San Francisco-Golden Gate bridge:
Toll rate increased...n406
Santee River, S. C.:
Shortage of steel delays bridge...n258
Seattle:
Discusses plans for street viaduct...n131
Viaduct is well under way... n*2
Tacoma Narrows bridge:
Bridge is scrapped...n*616
Cost of collapse... n6
Demolition bid rejected...n187
Model for bridge is being tested... n*196; n*598
Steel workers dismantling towers...n398
Tennessee railway bridge and approaches (unit prices)... 736
Texas saves steel in stone highway bridge ... n*75
Thousand Islands:
Bond issue defaulted...n397
Tygart River, V. Va.:
Bridge eliminates curve and grade crossings ... n*678
Washington, D. C.:
Anacostia River bridge plans studied.n131
Wauna Toll bridge:
Decision granting damages reversed.n681
Willamette River bridge, Ore. (unit prices) ... 318

Building Accidents and Failures

Chambersburg, Pa. warehouse wall goes out under apple overload...n*738
Chicago engine plant form collapse kills two ... n402
Kansas City warehouse collapses under apparent overload...n*402; e410
Washington, D. C. concrete form collapse injures many...n*465
Welland, Ont., Canada:
Form collapse kills four, n*755; inquiry ... n811

Building Construction

Aircraft engine plant being built "from the roof down"...n131
Army barracks built in record time... *90
Army barracks concreting speeded during winter by stovepipe forms... *346
Bank buildings halted as violation of order L-41 ... n322
British plan peacetime construction priorities ... n78
Cincinnati warehouse built on schedule and below estimate... *482
Cleveland plant saves steel with welded frames. F. W. Mettler... *700
Decline in building permits... n893
Fort Benning, Ga.—war housing for peacetime use. W. J. Henry... *104
Fort Greene project is speeded by planned concrete formwork... *302
Large mold loft of timber construction ... *282
Nashville District alien camp built in 23 days ... *358
Navy and Munitions Building, Washington, D. C. of 1918 provides some records in speed... *236
New York's Regional Director gives yardstick for measuring wartime building ... n71
1943 building to return to prewar level.n517
Plant construction expected to be active in new fields... n187
Pre-fabricated and partly pre-assembled houses built near shipyard... *212
Rammed earth offers housing solution.n*600
Single story concrete factory under construction, *583; J. E. Kalinka... l 835
Sperry Gyroscope Co. office building is notable for its use of cantilever construction ... n*692
Timber A-frames aid erection of 300-ft. trusses ... *150
Time-saving aids in writing federal building specifications ... 352
WPB drafts recommendations for steel use in various mill building type... n599

Building Construction—continued

Window design saves critical material Simmons Machine Tool shop. Samu Koffsky ...
Wisconsin machine shop building combines concrete and laminated woo framing ...
Building demolition see Wrecking

Building Design

Auditorium building redesigned in concrete. W. H. Wheeler...
Beehives of concrete for munition storage-pouring sets record...
Bell Airacobras assembled in plant designed for flexibility...
Canadian aircraft plant uses timb trusses with steel diagonals...
Engineer-contractor collaboration ...
Hangars for Navy blimps set new timb arch record ...
Metal igloos speed Eastern airbase job.
Navy shop building designed in timber
Providence, R. I. two-story office building is designed to save critical materials ...
Rigid frames for timber buildings. J. J. Polivka, *790; correction...
Single-story concrete factory under construction, *583; J. E. Kalinka...
War buildings of 1942...
Washington, D. C. War Department office building plans...
Wisconsin machine shop building combines concrete and laminated wood framing ... *

Building Laws and Regulations

Building laws and protection:
Air protection code issued by FWA...n7
Los Angeles approves new building code ...n

Buildings

Airbase erects metal igloos...n*32
Aircraft plant requires giant air conditioning system ... *59
Airplane engine plant being built "from the roof down"...n13
Airplane plant erected with the aid of 300-ft. trusses ... *15
Airplane repair buildings erected with the help of bridge travelers... *10
Albany, N. Y.:
Simmons Machine Tool shop window design saves critical materials. Samuel Koffsky ... *35
Arlington County, Va.:
Equipment maintenance on earth moving job ... *3
War Dept. building costs jump... n
Army warehouses use prefabricated timber trusses to speed construction... *2
Auditorium building redesigned in concrete. W. H. Wheeler... *57
Avon, Ky.:
Signal Corps office building...n*32
Bell Airacobras assembled in flexible plant ... *59
Bethesda, Md.:
Naval hospital dedicated ...n*33
British Columbia:
Log-camp structures ...n*68
Burns City, Ind.:
Microfilm storage house for Navy dedicated ... n6
Canada:
Aircraft plant uses timber trusses with steel diagonals... *58
Cincinnati, Ohio:
Warehouse built on schedule and below estimate ... *48
Cleveland, Ohio:
Commercial Bookbinding plant saves steel with welded frames. F. W. Mettler ... *70
Colombia:
Bogota chemical plant to be built...n69
Frankfort, Ky.:
Capitol building repairs completed...n33
Gas decontamination stations planned for California ... *63
General Electric plant uses reinforced-concrete pipe conduits for heating system ... *92
Hangar for airship... *84
Hangar roof supported by bowstring timber trusses ... *77
Hangars for Navy blimps... *57
Jersey City, N. J.:
Pennsylvania Railroad's warehouse walls sealed with mastic. J. E. Nicholson ... *71
Lexington, Ky.:
University of Kentucky athletic field house construction to go ahead...n33
Meridian, Miss.:
Vocational school building completed ... n*40
Navy shop building designed in timber.*58
New Brunswick, N. J.:
Laboratory building ...n75
New England Army barracks concreting speeded during winter by stovepipe forms ... *34
New York City:
Kallsman Instrument Div. war plant features daylight ... n*40
Norfolk, Va.:
Hospital plans completed...n*74
Ohio ordnance plant:
Unreinforced concrete floor slabs without footings form foundations.*35
Providence, R. I.:
U. S. Engineers office building designed to save critical materials...*63

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Buildings—continued

Rammed earth offers housing solution.*600
St. John, N. B.:
City builds housing project.....n*894
San Francisco:
Parking garage four stories down completed n*520
Seneca Lake, N. Y.:
Navy drill hall.....n*597
Single-story concrete factory under construction, *583; J. E. Kalinka.....1 835
Sperry Gyroscope Co. modern office building *692
WAACS camp in Iowa built of structural tile *838
Washington, D. C.:
Hospital plans speeded.....n337
Navy and Munitions building of 1918 provides some records in speed.....*236
War Department office building, the largest in the world.....*569
West Central Heating plant for Public Buildings Administration — special shoring for excavation.....*16
Wisconsin machine shop building combines concrete and laminated wood framing *566

C

Camouflage

Costs of camouflage.....n145
Dried digested sludge as a ground cover material.....n339; e345
New York University to give camouflage course n134
Pratt institute offers camouflage course.n232
Protective concealment for industry. V. T. Boughton.....*156; e149
Protective concealment specialists.....e622
War building construction bid with camouflage nets *564
Camps see Housing
Canadian Army engineering headquarters reorganized n268

Canals

Approved by Senate..... n67
Florida barge canal uncertain.....n142
Intracoastal Canal:
Proposed extension out for war duration n675
Rio Grande gravity canal and flood control work held up.....n273
Thames River, Eng.:
Canalizing revived 780

Cement

Army studies of cement. C. E. Wuerpel 1 620
Limitation order on cement manufacture n203
Mexico puts cement sales on priority basis n395
OPA controls manufacturers' price of cement n402
Soil-cement see Highways, Pavements
Channels:
Dredged depth measurements aided by double target row.....*846
Cisterns:
System of fire cisterns protects rural Wisconsin villages.....n810

Cities

Financial programming (Public Works Congress) 731
How cities secure Office of Civilian Defense Funds 284
Local governments in eight states allowed to build reserve funds..... 309
Municipal budgets rise with wartime conditions 630
Pittsburgh engineering budget cut protested n882
Civilian Conservation Corps—Congress votes for liquidation.....n70
Collier, B. C., engineer, dies.....n882
Columns:
Wall and column footings without steel. V. H. Bergman, *114; W. A. McCracken 1 209

Concrete

Barges of concrete built in prefabricated forms.....e900; *902
Batch counters for concrete mixer..... 315
Cement spreader and road-mix methods speed large surfacing jobs.....*366
Concrete floor system. E. F. Allbright. 1 81
Determining proportions of concrete for desired compressive strengths. Goldbeck & Gray..... 638
Dubuque bridge deck concrete delivered by pump n*880
Emergency concrete design, n463; e542; Oscar Schrier, G. M. Stone.....1 694
Emergency specifications for the design of reinforced concrete buildings effective n893
English blitzed bridges repaired with pre-cast concrete 228
Fort Greene project is speeded by planned formwork *302
General Electric plant uses reinforced-concrete pipe conduits for heating system *926
Great Britain is using more concrete... 365
Power dam concreting plant.....*854

Concrete—continued

Puget Sound Navy Yard—wrecking of old concrete building.....*357
Reinforcing bar standards reduced..... 298
Simplified practice recommendations for steel reinforcing bars..... 930
Single-story concrete factory construction, *583; J. E. Kalinka.....1 835
Steel saving in concrete. L. Kauf, C. M. Siguet, V. Boyd Christensen, William Flesher 1 9
Steel pipe forms speed winter construction for Army barracks.....*346
Tremie placed concrete for twin drydocks built by the Navy.....*702
Truck mixer washwater. J. E. Crabiel.1 899
Unreinforced concrete floor slabs without footings form foundations for Ohio ordnance plant *350
Wall and column footings without steel. V. H. Bergman, *114; W. A. McCracken 1 209
War Production Board concrete specifications established for steel saving...n463

Construction

Army engineer school teaches war building. Capt. T. H. Evans.....n*820
Canada further restricts construction work n530
Competition speeds building.....*146
Cost reductions on private buildings....e344
Detailed breakdown of cost estimates not required by OPA.....n738
Employment on construction seen declining n692
Essential occupations listed for construction industry.....n129; n667
Limitation order L-41 does not affect all types of construction.....n817
Logging industry work is removed from Conservation Order L-41.....n893
Lowdown on shutdowns. R. S. Colburn.n821
Monthly construction business summary, July 2, adv. 51; Aug. 13, adv. 67; Sept. 10, adv. 67; Oct. 8, adv. 51; Nov. 5, adv. 59; Dec. 3, adv. 51
1942 and 1941 construction compared... n7
November construction estimated.....n829
Price ceiling.....n57; n75, n257; e211; n398; n613; n737
Price increases seen as a result of OPA chief shift n891
Seabee force is increased.....n613
Seabee training center.....n535; n747; n753
Seabees are coming. W. G. Bowman...*415
War construction completed since June 1940 .....n518
War Manpower Commission approves interim plan on construction workers draft.....n811; n827
WPB plans blanket approval permits for miscellaneous building.....n403
WPB plans to cut 1943 building.....n597; n618; n755
Waste and inefficiency on war construction 1 471
Westinghouse Electric sets up a centralized organization to speed construction department. George Parkman *794

Construction Equipment

Air compressors speed water department maintenance 653
Bridge travelers erect aircraft building.*108
Canvas-covered frames that protect shipyard assembly *377
Carriers for steel plate racks speed deliveries in shipyards.....*183
Cement spreader and road-mix methods speed large surfacing jobs.....*366
Centrifugal machine sprays cement-mortar lining in cast-iron pipe. L. H. Seton *372
Concrete bucket with funnel hastens Grand Coulee Dam concrete placing.n*331
Concrete bucket is guided by rails.....*241
Concrete mixers, truck-mounted, ways to increase production. H. W. Hunt..*360
Construction equipment survey to provide basis for production quotas.....n517
Conveyor delivers fill for earth dam....*777
Conveyor, nine miles long, carries sand and aggregates to Shasta Dam. A. H. Whitmore *218; e210
Conveyor placed fill for Lahontan Dam. D. W. Cole 1 898
Crane, gantry, has automatic bell.....*183
Crane, giant mobile.....n*759
Crane overload warning device prevents accidents in shipyards..... 853
Dragline bucket removes mud pockets from filled ground.....*423
Drills for quarry from worn-out steel.. 732
Driver, three-lead, speeds concrete pier work in Pacific Northwest.....*299
Earth moving equipment maintenance at Arlington, Va..... *34
Electro-magnetic nail pickup..... 445
Floating mower removes grass from irrigation ditches *796
Gin pole used to drive poles.....*446
Grizzlies handle material for Sante Fe Dam *434
Guy anchorage made from pipe. C. C. Lynde *654
Highway equipment survey completed by WPB.....n62; n259; n892
Hoist, trolley *653
Jacking a sewer under a railroad. W. S. Harvey *22
Lifter removes rails without digging...n*892
Light tower from scrap.....*732
New York City is headquarters for construction machine pool.....n743

Construction Equipment—continued

New York City to sell heavy roadbuilding equipment n609
Piledriver changed from swinging leads to fixed *445
Plows and rotary blowers clear snow from airports. H. W. Hunt.....*641
Price ceiling for machinery revised by OPA n73
Rail puller speeds salvage program....n*669
Rental and operation charge ceilings set by OPA n535
Roller strike-off for leveling concrete..*241
Sheepsfoot rollers compact earth at Sepulveda Dam. J. G. Morgan.....*170
Shovels and cranes—keeping construction equipment running.....*176
Snowplow lighting reduces accidents....*183
Split hitch snubs vibration. C. C. Lynde.*654
Stilts save steps n*675

Dams

Allatoona Dam:
Dam site to be acquired.....n465
Anderson Ranch Dam work will be stopped n201

Dams—continued

Apalachia Dam:
Near completion n*450
Austin, Colorado flood dam named Mansfield Dam n332
Blue Mountain Dam:
Work stopped by material cut n76
Bluff Creek Dam:
Bid rejection upheld by court n456
Cost saving expected n398
Boulder Dam:
Generator installation in power plant is speeded by war *182
Brighton Dam:
Reservoir for suburban Washington. *259
California dam supervisor appointed ... n682
Center Hill Dam:
Concrete placing n*192
Cherokee Dam:
Work stopped n879
Dale Hollow Dam, Tenn.:
Equipment used at Friant Dam installed n*193
Davis Dam:
Award made under wartime powers .. n71
Work at site begun n201; n322
Denison Dam:
Removal of graves from site of reservoir n206
Turbines begin turning n197
Douglas Dam:
Engineers hope for a record n257
First concrete poured n*73
Scroll case for power house placed .. n*828
Work stopped n879
Enid Dam:
Construction is delayed for lack of bids n272
Fort Loudoun Dam:
Construction rushed n*518
Foster Creek Dam:
Mapping under way for dam n743
Friant Dam:
Dam is almost complete n*5
Outlet works started n*268
Grand Coulee Dam:
Bucket with funnel hastens concrete placing n*331
Instruments measure vibrations *936
Last bridge removed from Coulee Lake area n*70
Spillway section n*123
Shop fire interrupts works n829
Houston, Tex.:
Three dams to end floods *239
Keswick Dam:
Dam begins to take shape n*271
Rails guide concrete buckets *241
Knightville Dam:
Flood control dam completed n*142
Lahontan Dam:
Conveyor placed fill for dam. D. W. Cole l898
Las Virgenese Dam, Mexico:
Irrigation dam near completion n337
Liberty Dam, Md.:
Core borings (unit prices) 800
Marshall Ford Dam:
Gates opened for first time n616
Norfork Dam:
Half completed n76; n457
Patuxent River Dam, Md.
Closure of dam means more water for Washington n79
Power dam concreting *854
Ross Dam:
Bid opening postponed n62
Bids called for again, n147; n272; rejected n391
New bids to be called n618
Santa Fe Dam:
Grading and moving the fill *434
Sepulveda Dam:
Rolled-fill methods. J. G. Morgan *170
Shand Dam, Ontario:
Dedication of dam n*263
Shasta Dam:
9-mile belt conveyor carriers sand and aggregates. A. H. Whitmore. *218; e210
Solving quantities in excavation and fill. B. F. Powell *558
Wolf Creek Dam:
Access road to dam site requires difficult rock excavation *305
Youghiogheny Dam:
Belt conveyor delivers fill for earth dam *777
Davison, George S., engineer, dies n*525
Doors—WPB cuts off production of metal doors and frames n402

Drainage

Airplane repair depot drainage ... *222; e210
Airports built on New England's bogs .. *153
Canadian lake drainage for iron ore approved n522
Rhode Island airport drainage aided by runway inlets with gravel bottoms ... *316

Dredges and Dredging

Big dredge moved east for war work ... n*59
Channel dimensions for constant flow and variable slope. A. L. Roberts 42
Dredged depth measurements aided by double target row *846
Drills and drilling:
Diary on a deep well drilling. C. M. Roberts *928

P

Painting:
Glass-beaded paint for blackout traffic control, Philadelphia. R. A. Mitchell..*720
Oxyacetylene torch derusts penstock for painting 39
Parks—Great Smokies Park to be extended n878
Patents—for inventors' attention. L. B. Lent 1278

Pavements
Airports:
Airbase paved in ninety days.....*479
Airport pavement drainage (Public Works Congress) 731
Airport paving speeded by cement spreader and road-mix methods...*366
Army airfield runways paved at half a mile a day clip..... *18
Desert airbase constructed with soil-cement pavement *921; e901
Establishing grades on airfields. B. J. Lambert *786
New Jersey airport paving (unit prices) 824
Pennsylvania airport paving, drainage and grading (unit prices)..... 120
Canton, Ohio—permanent lane markers. J. A. Shisler..... *221
District of Columbia's street budget cut n337
Washington, D. C. directional and pedestrian islands (unit prices)..... 596
Photography—photographic backgrounds on identification badges..... *505
Pickling (metals) liquors treated for removal of toxic metals. Barnes & Braidech *496

Piles and Pile Driving
Concrete jackets make up for unequal pile lengths *544
Eucalyptus piles substitute for creosoted piles 241
Navy constructs twin drydocks under water *702
Pacific Northwest concrete pier work is speeded by three-lead driver..... *299
Pile foundations salvaged for shipyard *354
Pile-shoe for steep slopes in Gulf of St. Lawrence. R. F. Legget..... *936
Taper cuts on wood piles. K. T. Roberts 1278
Wood piles with mortar coating save time and critical materials..... *624

Pipes and Pipelines
El Monte pipeline, San Diego, Calif. (unit prices) 122
Extra-strength pipe for sewer. Benjamin Eisner 1*470
Federal specifications for vitrified clay sewer pipe revised. Benjamin Eisner *40
Greensboro, N. C. to Richmond, Va. petroleum pipe line to be extended..n275
Lining cast-iron pipe in place with centrifugal machine. L. H. Seton...*372
Norfolk, Newport News and Portsmouth, Va. enlarges water supplies under difficulties. E. J. Cleary..... *474

Pipes and Pipelines—continued
North Carolina-Virginia pipe line to be financed ..... n
Ohio gasoline pipe line to link refineries ..... n
Oil transportation shortage in East.... n
Oxyacetylene torch derusts penstock for painting 39
Reinforced-concrete pipe conduits used for General Electric plant heating system *9
San Francisco water pipes relaid with a coal tar enamel coat. J. J. Crowley *
Seattle water supply lines (unit prices) 2
Soil corrosion data in bulletin..... n
Texas-Illinois pipeline contract awarded .n
Texas-Illinois pipe line—ditchers operating in tandem speed trenching operations. S. L. Penote..... *9
Texas-Illinois-New York pipe line addition to be completed in June..... n
n691; n
Texas-Illinois-New York pipe line, world's biggest oil line. E. J. Cleary.*9
Texas-Illinois pipeline begins to stretch out n*2
Timber drain pipe saves steel..... n*1
Trans-Florida pipeline work to start..n3
Warren, Ohio, sewer extended under a railroad by jacking into place. W. S. Harvey..... *2

Planning
Chicago invites ideas for rebuilding blighted areas n33
Cleveland appoints new City Planning Commission n45
Detroit defense area includes ten cities 19
International City Managers' Association surveys planning agencies..... 10
New York City officials upheld on city jobs n89
New York Zoning Committee disbands .n8
Tampa Zoning Commission submits new zoning plan n33

Plywood
Heavy load tests on a plywood girder. C. W. Muhlenbruch..... *31; e10
Hutment grade plywood for military housing n89
Lifeboats of plywood to be built..... n19
New plywood grade introduced by WPB n6
Prefabricated defense workers' houses built 40 in a day, Mare Island Navy Yard n*132

Ports and harbors:
Escanaba, Mich. port work authorized.n20
Pearl Harbor damage..n*809; n*815; n*81
Spanish harbor program calls for big expenditures 10
Vera Cruz, Mexico, modernization planned n523

Postwar Planning
Boston Post Road postwar rebuilding planned n39
British plan peacetime construction priorities n7
Cities allowed to build reserve funds.. 309
Federal stimulation of local postwar planning put on the shelf for the duration n26
Fort Benning, Ga.—war housing for peacetime use. W. J. Henry.....*10
National Resources Planning Board urges establishment of national transport agency n68
New York and New York City begin postwar planning programs.....11; n26
n67
New York, London lay postwar plans..n27
New York plans postwar reclamation of beach sites..... n263; n40
Ohio submits postwar road program...n76
Oklahoma Planning & Resources Board outlines postwar plans..... n71
Post-war public works..... e28
Public Roads Administration lines up work for postwar start..... n40
Student planners in the making..... n*39
Superhighway seen as postwar New York State task..... n66
TVA plans seven postwar flood control dams n68

Power and Power Plants
Canadian power restrictions placed in effect n40
Canadian survey of power supply shows shortage n271; n33
Oakland, Calif. prepared for emergency needs with mobile power unit..... *56
Portland, Ore. utility cuts book valuation n19
Power resources adequate says WPB. n14
Puerto Rican power companies taken over by Federal Works Agency..... n6
War Production Board cuts power expansion program n27

Priorities
Bank buildings halted as violation of Order L-41 ..... n32
Cement prices controlled by OPA.....n40
Clay sewer pipe ceiling prices established n27
Metal doors and frame production cut off by WPB..... n40
Pawtucket, R. I. cited as priorities violator n53
Price ceiling may be limited to private work n25
Softwood lumber order clarified..... n32
Steel and zinc placed in most critical class n33

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Priorities—continued
WPB establishes Canadian priorities division n610
War Production Board takes over all authority over priorities n402

Public Works
California director of public works now Purcell n892
Canada names new deputy public works minister n529
Chicago public works bureau on parade. n*58
Federal Works Agency-War Production Board agreement sets standards for public works precedence n73
New bill for public works planning ... n758
Notes on the Public Works Congress ... 729
Venezuela plans large public works program n688
Pumps and pumping—Connecticut pumping stations for flood control n*260

R

Radio—NBC broadcasts series on engineers and the war n202
Railway terminal—Tennessee River freight terminals planned by TVA n69

Railways
Alaska Highway supplemental railway considered n6
Alaska railway line from Prince George surveyed n758
Alaska railway plans dropped n878
Brazil plans to electrify steam railroad lines n679
Clearances for war loads tested by "Porcupine" car n*322
Mexico expands its railway system ... 27; n691; n756
Missouri Pacific R.R. to improve its lines n752
Operation and maintenance of railroads has been transferred from Army Engineers to Transportation Corps n757
Pan-American Railway opens linking bridge n752
Pennsylvania Railroad extends Baltimore track n390
St. Louis asks I.C.C. aid to force track relocation n74
Tracks to be moved to critical zones when unessential n160
Venezuela completes railroad network .. n529

Reservoirs
Berlin reservoir of Mahoning Valley Conservancy District dedicated n678
Crawfish cause leakage in wooden reservoir n143
Galveston to construct two reservoirs .. n468
San Francisco landscaped reservoir does not invite vandalism *797
Rivers—Arkansas River survey nearing completion n196
Riveted connections, eccentric. F. P. Witmer *41

Roofs and Roofing
Canadian aircraft plant constructed with sawtooth roof of timbers *589
Economical timber trusses. J. H. Carr, Jr. 1 763
Economies in roof truss design. W. R. Crabtree *935
General Electric plant constructed with all-welded roof trusses *926
Hangar roof supported by bowstring timber trusses on buttressed concrete columns *771
Maintaining full section of truss chord angles. C. S. Wilson *445
Timber trusses. G. L. Bilderbeck 1 621
Tubing saves steel in long trusses. H. S. Card *37
Rope—proper use and conservation of rope *710
Rubber—Brazil and U. S. at work on tropical health program for rubber workers n829

S

Safety—National Safety Council begins campaign to cut accidents n70

Salvage
How to salvage tin cans efficiently 635
Sacramento garbage disposal fee is fixed by salvage value of materials 712
San Francisco collects tin can mountain n*758
Shredding plants for tin cans to be erected n460
Tin can salvage (Public Works Congress) 729
Tin can salvage ordered by WPB n603

Sanitation
Brazil and U. S. at work on tropical health program for rubber workers .. n829
First-aid for sanitation needs 775
Los Angeles seeks public health engineers n272

Sanitation—continued
Mexico City to be provided with adequate water and drainage n530
Pan-American Sanitary Bureau has symposium n614
War adds problems to sanitation n143
Wartime sewage disposal practice *491

Scrap
Charlotte, N. C. rail salvage tangle n129
Facts about scrap n466
Firing range proves placer mines for scrap metals n*822
Highland Park, Mich. cuts refuse disposal costs with scrap salvage 544
Lackawanna Railroad's scrapyard n*327
Magnet gathers Chicago scrap n741
Maryland bridge may be converted to scrap n*449
Metal cornices for scrap n*691
Minneapolis bridge for scrap n*528
New sources of old iron and steel appear n332
New York Central RR presents four bridges not used any longer 131
Ohio searches for abandoned bridges for scrap n460
Oregon shipyard scrap salvage *118
Pennsylvania Railroad recovers scrap from old street car rails n460
Scrap metal collection drive n*466
Scrap news 528; 608; 682; 751; 822; 883
Segregation of steel scrap to permit their reuse n71
U. S. Corps of Engineers surveying rivers for sunken metal n460
Water tank goes to war n*529

Seabees
E.N.R. editor gets Navy award for Seabee story n*893
Seabees are coming. W. G. Bowman *115
More power for the Navy e647
Seabee force is increased n613
Seabee Training camp near Yorktown, Va. a535; n747; n753

Sewage Treatment
Anacostia River sewage plant operation. 231
Army bio-filter sewage plant *173
Army camp sewage emergency treatment. Frank Backmann 107
Baltimore difficulties with sludge cake disposal 220
British overloaded sewage plant helped by alternating double filteration 217
Camouflage ground cover of sewage sludge n339; e345
Circular two-story type sewage settling tank near Chicago. Herbert Moore ... *502
Cities find cooperation desirable in providing sewage disposal service in wartime 495
El Paso expands utilities for Army use. *166
Federal Works Administration approved Mid-Atlantic building projects n598
Key West sewage job is rushed n*77
Los Angeles sewage screening plant may keep public from polluted beach. n71
Relation between average and extreme sewage flow rates. C. J. Johnson *500
Repair of corroded metal in sewage digestion tanks 499
San Diego faces 1960's problems today .. *110
Septic tank drains are not clogged by roots 152
Sewage disposal design for wartime industrial plants. M. H. Klegerman *492
Sewage disposal facilities in nation adequate (F.S.W.A. meeting) n502
Sewage disposal plant for small camps. Jacob Feld *184
Sewage treatment to meet war needs outlines by S. A. Greeley 633
Treating pickling liquors for removal of toxic metals. Barnes & Braidech *496
Wartime maintenance of facilities for sewage disposal 713
Wartime sewage disposal practice *491

Sewers
Bloomfield, N. J. sewer (unit prices) 938
"Duration" manhole design uses wood cover and concrete ring. J. M. Smith. *501
Elizabeth sewer construction order lifted n274
Federal specifications for vitrified clay sewer pipe revised. Benjamin Eisner. *40
Kansas City, Mo. sanitary sewer (unit prices) 875
Maintaining sewage and refuse disposal service in bombed areas 934
Mobile, Ala. sewers to be extended n468
Neglected items in storm sewer design. John Wilson 310
Norfolk, Va. additional sewage facilities bids to be opened n332
Orlando, Fla. sewer system to be extended n274
Relation between average and extreme sewage flow rates. C. F. Johnson ... *500
Warren, Ohio, sewer extended under a railroad by jacking into place. W. S. Harvey *22
Wartime maintenance of facilities for sewage disposal 715

Ship Building
Barge, tug program to ease oil pinch ... n896
Barges of concrete built in prefabricated forms *902; e900
Concrete barge no 1 takes to the water. n*535
Concrete ship construction starts in San Francisco n*827
Concrete ship for British n67
Contractors' versatility e83

Ship Building—continued
Kaiser yard at Richmond, Cal. launches freighter in less than 5 days n*687
Kaiser Yard sets ten day ship building record n*451
Mr. Kaiser's great accomplishment e280
Liberty ships built in basins and on ways *12; e10
Liberty ships built in 46 days in Oregon Shipbuilding Corp. *84
Liberty ship production records very high n689
Navy construction set at $250,000,000 month n814
New type landing ships for tanks n*459
Plywood lifeboats to be built n193
Pre-assembled ships speed construction e210; *224
Some of the records for building ships. n276
Tanker launched in 115 days, Oregon n*744
Why not non-sinkable ships? C. E. Williams 1 762
Wood barge construction n*187
Wood barge construction too much manpower. F. J. Steidlmayer 1 342
Wooden barges ordered by Maritime Commission n70

Ships
Normandie salvage operations continue n533
Pearl Harbor wrecked destroyers n*809

Shipyards
Convas-covered frames that protect shipyard assembly *377
Crane overload warning device prevents accidents in shipyards 853
Higgins yard, New Orleans, abandoned n125; e148
Large mold loft of timber construction . *822
Liberty ships welded at East Coast yard *426
Mexico plans drydock and shipyard ... n675
Navy constructs twin drydocks under water for shipbuilding *702
Oregon Shipbuilding Corp. builds Liberty ships in 46 days *84
Oregon shipyard scrap salvage *118
Pile foundations salvaged for shipyard *354
South Portland, Me.—Liberty ships built in basins and on ways *12
West Coast shipyard uses basin instead of ways *293
Shore protection—New York plans post war reclamation of beach sites .. n263; n405
Society for the Promotion of Engineering Education New York meeting n7

Soil Mechanics
Cohesionless soil samples by freezing. F. E. Fahlquist *229
Penetrometer control of rolled fill. F. H. Kellogg *550
Sampler for soft and sandy soils. H. D. Hammond *308
Soil corrosion data in bulletin 501
Soil sampler. T. R. Dames *762
Square and cube root with a calculator. T. W. Simpson 181
Square root by calculator. S. L. Goldberg. *41
Stabler, Herman, Geological Survey engineeer dies n759
Stadium—Houston completes athletic field n*530
Stage built for war show, Pittsburgh, Pa. n*683

Steel
Amounts of steel required for steel mill buildings 722
Concrete floor systems. E. F. Allbright 181
Emergency steel savings. C. T. Bishop .. 1 898
Higher steel stresses and fireproofing. G. M. Zucco 1 620
Increased steel stresses. E. M. Viner ... 1 342
Iron and steel corrosion traced to bacterial action 371
Kaiser steel plant making rapid progress n529
Maintaining full section of truss chord angles with welding. C. S. Wilson *445
Reinforcing bar simplified practice recommendations 930
Reinforcing bar standards reduced 298
Saving steel. L. Kauf 1 342
Saving steel by higher stresses. G. M. Zucco, 1 209; J. G. Shope, 1 279; F. H. Frankland 1 343
Saving steel in concrete. William Flesher; C. M. Signot; V. Bogvad-Christiansen 19
Saving steel through design. W. W. Wheeler 1 694
Segregation of steel scrap to permit their reuse n71
Steel and zinc placed in most critical class n331
Temperature and strength of structural steel. F. H. Frankland 1 409
Tubing saves steel in long trusses. H. S. Card *37
Types of steel on scarcity list n74
United States steel output exceeds that of Axis 431
Using tubing to save steel. E. W. P. Smith 1 278
Varied safety factor for steel—correction. M. Hirschthal 1 80
Wall and column footings without steel. V. H. Bergman, *114; W. A. McCracken e209
War Production Board concrete specifications established for steel saving ... n463
War Production Board orders unit stress of 24,000 lb. for steel design .. n389

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Steel—*continued*
WPB drafts recommendations for steel use in various mill building type.....n599

Street Traffic
Bead reflectors replace flicker traffic signs, Chicago..... 785
Canadian cities fear snow removal problems n529
Glass-beaded paint for blackout traffic control, Philadelphia. R. A. Mitchell.*720
Lynchburg, Va. prepares plan for routing military convoys..... 175
San Francisco completes parking four stories down.....n*520
Staggered hours in Canada ease transportation n896
Wartime traffic problems (Public Works Congress) 730

Streets
Louisville, Ky. street to be rebuilt.....n322
Philadelphia starts condemnation proceedings to widen Vine St.....n202

Structural Design
Against design refinements. G. H. Wells.1 278
Bridge design logic. Crosby Miller.....1 208
Cantilever bridge virtues. N. C. Raam...1 343
Cantilever girder bridges are better than plate girder bridges under many conditions. C. H. Wood.....*235
Conservation through design. J. B. Hollyfield 1 208
Continuous girders preferred. Louis Balog 1 279
Deflections of continuous steel-beam highway bridges. T. W. Oliver.....*242
Dynamic sand bridge design. A. M. Freudenthal 1 540
Emergency steel savings. C. T. Bishop..1 898
Heavy load tests on a plywood girder. C. W. Muhlenbruch..... *31
Increased steel stresses. E. M. Viner...1 342
Maintaining full section of truss chord angles. W. R. Crabtree.....*935
Maintaining full section of truss chord angles with welding. C. S. Wilson...*445
Moment and deflection formula. S. U. Benscoter 654
New moment formulas. Meyerhof, Seldensticker 1 315
Rigid frames for timber buildings. J. J. Polivka, *790; correction.....e899
Saving steel. L. Kauf..... 1 342
Saving steel by higher stresses. G. M. Zucco 1 209
Saving steel by higher stresses—specifications. F. H. Frankland.....1 343
Steel stresses and heat. J. G. Shope....1 279
Timber A frames aid erection of 300-ft. trusses *150
Tubing saves steel in long trusses. H. S. Card *37
Wall and column footings without steel. V. H. Bergman, *114; W. A. McCracken 1 209
War Production Board orders unit stress of 24,000 lb. for steel design.....n389

Subways
Chicago's State Street emerges from subway debris.....n*468
Chicago subway pedestrian passageways (unit prices).....938
Italy plans continuing Rome subway construction n468
Rochester plans subway line extension..n610

Surveys and Surveying
Brass trivet for level work.....*505
Changing grades for vertical curves simplified by formulas. E. J. Smith.. 42
Establishing grades on airfields. B. J. Lambert e764; *786
Foster Creek Dam mapping under way.n743
Solving for the station of point of intersection. C. A. Helm.....*241
Surveyor of the future.....n*752
